[www.TileofSpainUSA.com](http://www.TileofSpainUSA.com)

“The true power of the ceramic medium  
is the same as it’s always been; it’s inert and  
immutable once fired; it’s impervious  
and hygienic; it’s easy to sanitize and asks  
very little of us but provides so much  
strength and value to our lives  
and the life of the buildings we  
choose to grace with it.”
